## EDUCATION

### Sister Nivedita University

2024 – 2028

B.Tech in Computer Science Engineering · CGPA: ~7.0

## TECHNICAL SKILLS

|               |                                                                                                                                                |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Languages     | Python, JavaScript, Java, Solidity, HTML/CSS                                                                                                   |
| Frameworks    | React.js, Next.js, Node.js, Spring Framework, Streamlit                                                                                        |
| Blockchain    | Hardhat, Wagmi, RainbowKit, Smart Contracts (Celo, NEAR)                                                                                       |
| AI / ML       | NumPy, Pandas, Matplotlib, Seaborn · NLP, Deep Learning, ANN, RNN · Generative AI & LLMs · AI Agents · HuggingFace · LangChain · RAG · AstraDB |
| Tools & Infra | Git, GitHub, WebSockets, VS Code                                                                                                               |

## PROJECTS

### Mango.Tree — Decentralized Cross-Chain Betting Platform

2025

[github.com/ankanz1](https://github.com/ankanz1)

- Built a trustless betting platform on **Celo** and **NEAR Intents** with smart contract-based escrow and multi-chain payouts.
- Engineered real-time odds & event updates using **WebSockets**; integrated wallet connectivity via **Wagmi** and **RainbowKit**.
- Deployed and tested smart contracts with **Hardhat**; built full-stack UI with **Next.js** and **Node.js** backend.

Stack: Solidity · Hardhat · React.js · Next.js · Node.js · Wagmi · RainbowKit · WebSockets

### Circlo — Hyperlocal Peer-to-Peer Rental Platform

2025

- Built a platform that lets users **earn money from idle items** by renting them out to nearby people who need them.
- Enables renters to access everyday items at **affordable prices** without buying new, reducing waste and promoting a circular economy.
- Delivered a functional MVP as part of a team under hackathon constraints.

## HACKATHONS & COMPETITIONS

### HackQuest — Circlo

2025

SAP All India Hackathon

- **1st place** among 100+ teams at the college level.
- **4th place** at the State Round; **selected for Country Level** held in Coimbatore.

■ College Rank 1 (100+ teams) · State Rank 4 · Country Level Qualifier

## CERTIFICATIONS

### Artificial Intelligence — Google · Coursera

2025

### Java & Spring Framework — Board Infinity · Coursera

2025

## LEADERSHIP & EXTRACURRICULARS

## **Vice President — Aperture Alchemist Photography Club**

Nov 2025 – Present

Sister Nivedita University

- Elected VP after serving as **Active Member & Photographer** since November 2024.
- Simultaneously freelancing as a **Web Developer** on the club's Production Team — building and maintaining digital presence.
